A STATEMENT OF THE
ATTENDANCE OF MEMBERS OF THE
FOREST SERVICE

AT MEETINGS AND CONVENTIONS
DURING THE YEAR 1907

LETTER FROM THE SECRETARY OF
AGRICULTURE, TRANSMITTING, IN
RESPONSE TO SENATE RESOLUTION
NO. 157, A STATEMENT OF THE
ATTENDANCE OF MEMBERS OF THE
FOREST SERVICE AT MEETINGS AND
CONVENTIONS DURING THE YEAR 1907

MAY 16, 1908.—Ordered to lie on the table and be printed
with accompanying papers

WASHINGTON
GOVERNMENT PRINTING OFFICE
1908

LETTER OF TRANSMITTAL.

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, May 14, 1908.

To the Senate:

~~By~~ By direction of the President, in pursuance of Senate Resolution No. 157, I have the honor to transmit herewith a statement of the attendance of members of the Forest Service at meetings and conventions during the year 1907.

In my letter of April 27 I stated that attendance upon a large part of the meetings, both official and unofficial, is incidental to the performance of the regular duties of forest officers, and that in many cases the meetings are so local in character that no record of them is preserved at Washington. When expense is incurred in attending such meetings, whether under general or special instructions, an account is rendered in the form prescribed by the Treasury Department, which requires that all items of expenditure incurred during any one month, for which reimbursement is sought, shall be submitted on a single voucher. To segregate expenditures made in order to attend meetings from the other items on these accounts it was necessary to know first on what dates forest officers were in attendance on meetings.

In the case of officers employed in Washington these dates are recorded in Washington, but in the case of forest supervisors and rangers compliance with the resolution was possible only after receiving special reports from the field officers. Though telegrams were dispatched to the supervisors calling for these reports immediately upon the passage of the resolution, the delays inevitable in securing the information from those most remote have made impossible an earlier compliance with the terms of the resolution.

The detailed statement presents, as accurately as it is possible to do, the facts called for concerning 1,530 individual cases of attendance of Forest Service employees at meetings. Of these, 801, or 52 per cent, represent the attendance at official meetings, or assemblies of forest officers for instruction in matters connected with their administrative work. Of the 729 unofficial meetings attended a considerable proportion were meetings of farmers, addressed either in the course of tours of Congressional districts made in the company of Representatives and at their request, or in connection with farmers' institutes, or at the request of the farmers themselves.

Ever since July, 1898, the Department of Agriculture has been assisting farmers and others, upon request, in the practical care of their woodlands. When an agent is sent at the request of farmers in any region to advise them upon the ground as to the best methods

of handling their holdings, an opportunity often presents itself to give an address on this subject before a meeting of farmers. In the same way addresses asked for by commercial bodies, educational institutions, and other gatherings of citizens are often given by members of the Forest Service in the course of travel undertaken primarily for other purposes. Oftentimes the proper apportionment of the expenditure incurred becomes a matter of judgment. Necessarily, in preparing months afterwards a statement of the expense of attendance at these individual meetings, a doubt sometimes arises as to what part of the cost of travel should be charged to the making of the address. It is believed that the figures as given are on the whole too high rather than too low.

Very respectfully,

JAMES WILSON,
Secretary.

Statement of attendance of members of the Forest Service at meetings and conventions during the year 1907.

[Prepared in pursuance of Senate Resolution No. 157.]
